

How do we solve the **Big Questions, opportunities and problems** of today and tomorrow?

What about if students working in different disciplines formed a group to address these challenges together. Could that generate some new ideas?

THE EPISTEMIC INSIGHT FUTURE OF KNOWLEDGE INITIATIVE

*Join us to seek new ways
to address some of life's
biggest questions:*

How can we help to shape more sustainable futures?

What are the best ways to design and work with artificial intelligence?

How can we best respond to individual, societal and global opportunities and challenges around health and wellbeing?

EPISTEMIC INSIGHT means 'knowledge about knowledge' and in particular, knowledge about disciplines and how they interact.
